

## CONTENTS

### Research Articles

- Marina Mačukanović-Jocić, Danijela Stešević, Dragana Rančić, Zora Dajić Stevanović: Pollen morphology and the flower visitors of *Chaerophyllum coloratum* L. (Apiaceae) . . . . . 1
- Artur Pliszko, Małgorzata Jaźwa: Floristic composition of vegetation in habitats suitable for *Erigeron × huelsenii* (Asteraceae) . . . . . 9
- Vladimir Stupar, Andraž Čarni: Ecological, floristic and functional analysis of zonal forest vegetation in Bosnia and Herzegovina . . . . . 15
- Dilek Oskay: A morphological study on the dioecious endemic *Erodium somanum* H. Peşmen (Geraniaceae), critically endangered in Turkey . . . . . 27
- Mehmet Tekin, Esra Martin: Morphology, anatomy and karyology of endangered Turkish endemic *Physoptychis haussknechtii* Bornm. (Brassicaceae) from Central Anatolia . . . . . 32
- Elżbieta Weryszko-Chmielewska, Mirosława Chwil: Structure of floral nectaries in *Aesculus hippocastanum* L. . . . . 41
- Tihana Marček, Željka Vidaković-Cifrek, Mirta Tkalec, Marin Ježić, Mirna Ćurković-Perica: Response of dihaploid tobacco roots to salt stress . . . . . 49
- Ayşen Yumurtacı, Hülya Sipahi, Li Zhao: Genetic analysis of microsatellite markers for salt stress in two contrasting maize parental lines and their RIL population . . . . . 55
- Sabina Anžlovar, Matevž Likar, Jasna Dolenc Koce: Antifungal potential of thyme essential oil as a preservative for storage of wheat seeds . . . . . 64
- Bushra Ashiq, Sobia Chohan, Rashida Perveen, Muhammad Abid and Mirza Abid Mehmood: Chemical composition and antifungal potential of medicinal plants against seedborne mycoflora of eggplant (*Solanum melongena* L.) . . . . . 72
- Koraljka Kralj Borojević, Marija Gligora Udovič, Petar Žutinić, Gábor Várbíró, Anđelka Plenković-Moraj: Do benthic diatom assemblages reflect abiotic typology: a case study of Croatian streams and rivers . . . . . 80

### Short Communication

- Vedran Šegota, Vladimir Hršak, Antun Alegro: Long time no see – rediscovery of peculiar ephemeral fern *Anogramma leptophylla* (L.) Link in Croatia . . . . . 91
- Günter Gottschlich, Filippo Scafidi, Emilio Di Gristina: *Hieracium pollinense* (Asteraceae), an endemic species to the Pollino National Park (Southern Italy) rediscovered . . . . . 95
- Danijela Stešević, Nada Bubanja: Five new alien species in the flora of Montenegro: *Coreopsis tinctoria* Nutt., *Ipomoea indica* (Burm.) Merr., *Lupinus × regalis* Bergmans, *Physalis angulata* L., and *Solidago canadensis* L. and new possible threats to the biodiversity . . . . . 98
- Murugan Sumathi, Yasodha Ramasamy: Microsatellite allele length variations in inter-specific hybrids of *Eucalyptus* . . . . . 103
- Hrvoje Lepeduš, Mario Jakopec, Jasenka Antunović Dunić, Goran Krizmanić, Sanida Osmanović, Vera Cesar: Temperature-dependent chlorophyll accumulation and photosystem II assembly during etioplast to chloroplast transition in sunflower cotyledons . . . . . 107
